

NoticeMessage

```
classDiagram
    class NoticeMessage {
    }
    class NoticeMessage {
    }
    class NoticeMessage {
    }
```

The image shows a UML class diagram for a class named 'NoticeMessage'. The diagram consists of a rectangular box divided into three horizontal compartments. The top compartment contains the class name 'NoticeMessage'. The middle and bottom compartments are currently empty, representing areas for attributes and methods respectively.
